YOU

DESIGN BY LUCIDIPEVERE

YOU is the **new stackable chair** designed by LucidiPevere. The **elegant arc of curved solid wood** serves both as a visual element, enhancing its side profile, and as a functional feature, ensuring stability and practicality during stacking, thanks to the protective rubber pads attached to the ends. The **beechwood frame** supports a shell that can be left natural or colored, with the option of upholstery in matching or contrasting hues.

A **bistro chair** entirely made of wood, accessorizable with a **soft pad**.

AMPLE COLLECTION

DESIGN BY NICHETTO STUDIO

Indoor / Outdoor

Nichetto Studio signs a **declination for outdoor** of the chair presented at the Salone del Mobile 2023, which this year is also joined by a **bistro table in two variants**, one of which is stackable.

Crafted to elevate both contract and residential environments with sophistication, the seating's seat and backrest, as well as the tabletops of the tables, are meticulously crafted from **iroko wood**. The structures feature a tubular steel frame.
